Professor Joshua Lederberg
Department of Genetics
The University of Wisconsin
Madison 6, Wisconsin

Dear Dr. Lederberg:

This is in answer to your letter of August twenty-fifth regarding Ephrussi. Please pardon the late reply; I have been off on a little vacation in connection with the AIBS meetings.

I appreciate very much your speaking to Ephrussi and I hope that we can work out something mutually satisfactory by way of bringing him to Ann Arbor.

Your own visit was a high spot in the summer program at the University. I certainly hope that we may have you with us again soon.

Please remember me to your wife.

Kindest regards,

K. L. Jones
Chairman
